Công ty Cổ phần Đầu tư TDG GLOBAL xin giải trình về biến động lợi nhuận sau thuế thu nhập doanh nghiệp của Báo cáo Quý III năm 2026 so với Báo cáo Quý III năm 2025 như sau:

TDG GLOBAL Investment Joint Stock Company would like to explain the changes in corporate income tax profit after tax in the Third Quarter of 2026 compared to the Third Quarter of 2025 as follows:

1. Báo cáo tài chính Hợp nhất/ *The Consolidated Financial Statements*:

Lợi nhuận sau thuế thu nhập doanh nghiệp tại Báo cáo kết quả hoạt động kinh doanh Quý III năm 2026 không biến động từ 10% trở lên so với cùng kỳ năm 2025.

Profit after corporate income tax as reported in the Statement of Profit or Loss for the third quarter of 2026 did not change by 10% or more compared to the same period in 2025.

2. Báo cáo tài chính Riêng/ *The Separate Financial Statements*:

Lợi nhuận sau thuế thu nhập doanh nghiệp tại Báo cáo kết quả hoạt động kinh doanh Quý III năm nay tăng 466,06% so với cùng kỳ năm trước, nguyên nhân chính là do doanh nghiệp tiết giảm đáng kể chi phí tài chính (đặc biệt là chi phí lãi vay giảm hơn 1,54 tỷ đồng, tương đương giảm 22,75%)

đồng thời doanh thu tài chính tăng mạnh (tăng 442,4 triệu đồng), qua đó bù đắp cho phần sụt giảm của lợi nhuận gộp cũng như chi phí quản lý doanh nghiệp tăng thêm trong kỳ.

The Company's profit after corporate income tax in the third quarter of this year increased by 466.06% compared to the same period last year. The main reasons were a significant reduction in financial expenses, particularly interest expenses, which decreased by more than VND 1.54 billion, equivalent to a decline of 22.75%, while financial income increased substantially by VND 442.4 million. These factors offset the decline in gross profit and the increase in general and administrative expenses during the period.

Trân trọng!
Sincerely!

STATEMENT OF RESPONSIBILITY OF THE BOARD OF DIRECTORS FOR THE FINANCIAL STATEMENTS

The Board of Directors of the Company is responsible for preparing the Financial Statements which give a true and fair view of the financial position, results of operations and cash flows of the Company during the year. In preparing the Financial Statements, the Board of Directors of the Company undertakes to comply with the following requirements:

- Select suitable accounting policies and apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, and whether there are material departures that need to be disclosed and explained in the financial statements;
- Prepare and present financial statements in compliance with accounting standards, accounting regimes and current relevant regulations;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Directors of the Company ensures that the accounting records are kept to reflect the financial position of the Company, with a fair and reasonable level at any time and to ensure that the Financial Statements comply with current regulations of the State. At the same time, it is responsible for ensuring the safety of the Company's assets and taking appropriate measures to prevent and detect fraud and other violations.

The Board of Directors of the Company commits that the Financial Statements have reflected fairly and fairly the financial position of the Company as at September 30, 2026 , the results of its operations and cash flows for the fiscal year ended on the same date, in accordance with Vietnamese accounting standards and regimes and in compliance with current relevant regulations.

- Construction of civil and industrial works;
- Production of bottled purified drinking water ;
- Warehouse rental services;
- Production and warranty repair of gas cylinders;
- Buy and sell gas cylinders (LPG), gas tanks (LPG).

II. ACCOUNTING POLICIES APPLIED AT ENTERPRISES:

1. **Accounting period:** Starts from January 1 and ends on December 31 every year.

2. **Currency used in accounting:** The currency used in accounting records is Vietnamese Dong (VND)

3. **Applicable accounting regime**

Applicable accounting regime

The Company applies the Enterprise Accounting Regime according to Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Minister of Finance.

Statement on Compliance with Accounting Standards and Accounting Regime

We ensure compliance with Vietnamese accounting standards and regulations.

4. **Applicable accounting form**

The company applies the general journal accounting method.

5. **Applicable accounting policies**

a. *Principles for recording cash and cash equivalents:* Including cash, bank deposits, and money in transit. The currency used in accounting records is Vietnamese Dong (VND).

b. *Principle of recording receivables:* Receivables are presented on the financial statements according to the book value of receivables from customers and other receivables.

c. *Principles of inventory recognition* : Inventories are calculated at original cost. In case the net realizable value is lower than the original price, it must be calculated at the net realizable value. The original cost of inventories includes purchase costs, processing costs and other directly related costs incurred in bringing the inventories to their present location and condition.

Method of calculating ending inventory value: Ending inventory value is determined by the monthly average price calculation method.

Inventory accounting method: Inventory is accounted for using the perpetual inventory method.

The provision for inventory devaluation is made at the end of the year as the difference between the original cost of inventory and their net realizable value.

d. *Fixed asset depreciation method*

Tangible fixed assets and intangible fixed assets are recorded at original cost. During use, tangible fixed assets and intangible fixed assets are recorded at original cost, accumulated depreciation and residual value.

Depreciation is calculated using the straight-line method. The estimated depreciation period is as follows:

- Houses and structures	5 - 25 years
- Machinery and equipment	5 - 10 years
- Means of transmission	5 - 12 years
- Management equipment and tools	3 - 8 years
Other fixed assets	5 - 10 years

e. *Principles of recording borrowing costs*

Borrowing costs are recognized in production and business expenses in the period when incurred, except for borrowing costs directly related to the investment, construction or production of unfinished assets, which are included in the value of that asset (capitalized) when meeting all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs " .

Borrowing costs directly related to the construction or production of a qualifying asset are included in the cost of that asset (capitalized), including interest, amortization of discounts or premiums when issuing bonds, and additional costs incurred in connection with the borrowing process.

f. *Principle of recording payable expenses*

Actual expenses that have not yet arisen but are deducted in advance from production and business expenses in the period to ensure that when actual expenses arise, they do not cause sudden changes in production and business expenses based on the principle of matching revenue and expenses. When such expenses arise, if there is a difference with the amount deducted, the accountant will record additional expenses or reduce the expenses corresponding to the difference.

g. *Principles and methods of recording provisions for payables*

In case the amount of provisions payable in this period is greater than the amount of provisions payable in the previous period that have not been used up, the difference shall be recorded in the production and business expenses of that accounting period. In case the amount of provisions payable in this period is less than the amount of provisions payable in the previous period that have not been used up, the difference shall be reversed and recorded as a reduction in the production and business expenses of that accounting period.

h. *Principles for recording exchange rate differences*

Economic transactions arising in foreign currencies are converted into Vietnamese Dong at the actual exchange rate at the time of the transaction. At the end of the year, monetary items originating in foreign

currencies are converted at the average interbank exchange rate announced by the State Bank of Vietnam on the closing date of the accounting year.

Actual exchange rate differences arising during the period and exchange rate differences due to revaluation of balances of monetary items at the end of the year are transferred to financial revenue or expenses in the fiscal year.

i. *Principles and methods of revenue recognition*

Sales revenue

Sales revenue is recognized when the following conditions are satisfied:

- Invoiced to customer ;
- Revenue is determined relatively reliably;
- The company has obtained or will obtain economic benefits from the sale transaction;
- Identify costs associated with sales transactions

Service revenue

Revenue from rendering of services is recognised when the outcome of the transaction can be estimated reliably. Where the provision of services relates to several periods, revenue is recognised in each period according to the results of the work completed at the date of the Balance Sheet of that period. The outcome of a service provision transaction is recognised when the following conditions are satisfied:

- Revenue is determined relatively reliably;
- Ability to obtain economic benefits from the transaction of providing that service;
- Determine the completed work on the date of the Balance Sheet;
- Determine the costs incurred for the transaction and the costs to complete the transaction to provide that service.

Financial revenue

Revenue arising from interest, royalties, dividends, profits shared and other financial revenue is recorded when both (2) of the following conditions are satisfied:

- It is possible to obtain economic benefits from the transaction;
- Revenue is determined relatively certainly.

Dividends and profits are recognized when the Company is entitled to receive dividends or profits from capital contributions.
